All food is vegan and almost everything is handmade.

Hey!

We are **Café Nasch** in Hamburg's Gängeviertel.

The business was founded in 2015 by two friends.

During a transformation phase initiated by the former owners in 2024, the café team & some friends from the outside formed a collective.

Since 2025, the business has been run by the **NASCH Kollektiv e.V.**

The aim of the association is not only to save the café from closing, but also to make even better use of this unique place and develop it further.

We strive for a non-hierarchical way of working and would like to use the café business to organize events such as exhibitions, readings, workshops and much more.

Our walls are used for regularly changing exhibits by selected artists.

Almost all of our menu items and their components are handmade.

Our prices are set in such a way that we can cover the running costs and can pay us an almost decent hourly wage. Nevertheless, we know gastronomic offers often are expensive and a luxury to some.

If you are dependent on it, we are happy to give you a **15%** discount. Just let the person at the counter know, when paying.
